REVIEW

Mechanisms and regulation of reduction-based iron uptake in plants
W. Schmidt 1

RESEARCH

Iron accumulation in root apoplasm of dicotyledonous and graminaceous species grown on calcareous soil
X. Zhang, C. Yi and F. Zhang 27

Quantification of vessel embolisms by direct observation: a comparison of two methods
J. S. Pate and M. J. Canny 33

Sink to source transition in developing leaf blades of tall fescue
A. Brégard and G. Allard 45

Relationship between active oxygen species and cardenolide production in cell cultures of *Digitalis thapsi*: effect of calcium restriction
A. Paranhos, J. Fernández-Tárrago and P. Corchete 51

Effects of inorganic nitrogen compounds on the activity and synthesis of nitrogenase in *Gloeothece* (Nägeli) sp. ATCC 27152
J. Cheng, C. R. Hipkin and J. R. Gallon 61

Uptake and utilization of atmospheric ammonia in three native Poaceae species: leaf conductances, composition of apoplastic solution and interactions with root nitrogen supply
S. Hanstein, M. Mattsson, H.-J. Jaeger and J. K. Schjoerring 71

The development of blackcurrent fruit from flower to maturity: a comparative study by 3D nuclear magnetic resonance (NMR) micro-imaging and conventional histology
S. M. Glidewell, B. Williamson, G. H. Duncan, J. A. Chudek and G. Hunter 85

The effect of light on the growth and reproduction of *Floerkea proserpinacoides*
M. F. McKenna and G. Houle 99

Fructan biosynthesis in *Lolium perenne*: appraisal of soluble and insoluble enzymatic pathways
D. Guerrand, J. C. Avice, N. Pavis, M. P. Prud'homme and J. Boucaud 109

Responses to flooding intensity in *Leontodon taraxacoides*
A. A. Grimoldi, P. Insausti, G. G. Roitman and A. Soriano 119

Interactive effects of elevated [CO_2] and drought on cherry (*Prunus avium*) seedlings. I. Growth, whole-plant water use efficiency and water loss
M. Centritto, H. S. J. Lee and P. G. Jarvis 129

Interactive effects of elevated [CO_2] and drought on cherry (*Prunus avium*) seedlings. II. Photosynthetic capacity and water relations
M. Centritto, F. Magnani, H. S. J. Lee and P. G. Jarvis 141

Host–pathogen relationship between *Salix* and *Melampsora* sheds light on the parentage of some biomass willows
M. H. Pei, T. Hunter and D. J. Royle 155

Arbuscular mycorrhizal colonization delays nucleus senescence in leek root cortical cells
G. Lingua, S. Sgorbati, A. Citterio, A. Fusconi, A. Trotta, E. Gnavi and G. Berta 161

Instructions to Authors 171

FEBRUARY 1999 VOLUME 141 NUMBER 2

Contents

REVIEW

Tansley Review No. 103
Biological clocks in *Arabidopsis thaliana*
A. J. Millar 175

RESEARCH

Neither compatible nor self-incompatible pollinations of *Brassica napus* involve reorganization of the papillar cytoskeleton
J. D. W. Dearnaley, K. M. Clark, I. B. Heath, R. R. Lew and D. R. Goring 199

Microtubule and actin filament organization during stomatal morphogenesis in the fern *Asplenium nidus*. II. Guard cells
P. Apostolakos and B. Galatis 209

Role of external calcium in homeostasis of intracellular pH in the cyanobacterium *Anabaena* sp. strain PCC7120 exposed to low pH
N. Giraldez-Ruiz, I. Bonilla and F. Fernandez-Piñas 225

Characterization of PSII photochemistry in salt-adapted cells of cyanobacterium *Spirulina platensis*
C. Lu and A. Vonshak 231

Response of antioxidant systems and leaf water relations to NaCl stress in pea plants
J. A. Hernández, A. Campillo, A. Jiménez, J. J. Alarcón and F. Sevilla 241

Impacts of ozone on *Plantago major*: apoplastic and symplastic antioxidant status
T. Lyons, J. H. Ollerenshaw and J. D. Barnes 253

The prevalence and spatial distribution of viruses in natural populations of *Brassica oleracea*
A. F. Raybould, L. C. Maskell, M-L. Edwards, J. I. Cooper and A. J. Gray 265

Differential responses of UK upland plants to nitrogen deposition
I. D. Leith, W. K. Hicks, D. Fowler and S. J. Woodin 277

The Holocene at Lac de Creno, Corsica, France: a key site for the whole island
M. Reille, J. Gamisans, V. Andrieu-Ponel and J.-L. de Beaulieu 291

Anatomical characteristics of roots of citrus rootstocks that vary in specific root length
D. M. Eissenstat and D. S. Achor 309

Comparison of *Gaeumannomyces*- and *Phialophora*-like fungal pathogens from maize and other plants using DNA methods
E. Ward and G. L. Bateman 323

Spatial distribution of discrete RAPD phenotypes of a root endophytic fungus, *Phialocephala fortinii*, at a primary successional site on a glacier forefront
A. Jumpponen 333

Time course of nodule development in the *Discaria trinervis* (Rhamnaceae) – *Frankia* symbiosis
C. Valverde and L. G. Wall 345

Multistrain infections of the grass *Brachypodium sylvaticum* by its fungal endophyte *Epichloë sylvatica*
G. Meijer and A. Leuchtmann 355

MARCH 1999 VOLUME 141 NUMBER 3

Contents

REVIEW

Books

Rothschild's reserves: time and fragile nature • The phytogeography of Northern Europe • Opportunities for biological nitrogen fixation 369

RESEARCH

Colonization of wheat *para*-nodules by the N_2-fixing cyanobacterium *Nostoc* sp. strain 2S9B
M. Gantar and J. Elhai 373

Culture senescence and abscisic acid induce saporin production in cultured roots of *Saponaria officinalis*
A. Di Cola, A. Poma and L. Spanò 381

Tetraphenylphosphonium cation (TPP^+) is not a reliable membrane potential probe in the cyanobacterium *Synechococcus R-2* PCC 7942
R. J. Ritchie 387

Generalities in the growth, allocation and leaf quality responses to elevated CO_2 in eight woody species
J. H. C. Cornelissen, A. L. Carnelli and T. V. Callaghan 401

The response of clones of *Populus tremuloides* differing in sensitivity to ozone in the field
S.-C. Yun and J. A. Laurence 411

The effect of increased deposition of atmospheric nitrogen on *Calluna vulgaris* in upland Britain
J. A. Carroll, S. J. M. Caporn, L. Cawley, D. J. Read and J. A. Lee 423

The effects of quantity and duration of simulated pollutant nitrogen deposition on root-surface phosphatase activities in calcareous and acid grasslands: a bioassay approach
D. Johnson, J. R. Leake and J. A. Lee 433

The host range of *Plasmodiophora brassicae* and its relationship to endogenous glucosinolate content
J. Ludwig-Müller, R. N. Bennett, G. Kiddle, S. Ihmig, M. Ruppel and W. Hilgenberg 443

Energy requirement for foliage formation is not constant along canopy light gradients in temperate deciduous trees
Ü. Niinemets 459

Environmental effects on the fitness of triazine-resistant and triazine-susceptible *Brassica rapa* and *Chenopodium album* in the absence of herbicide
A. B. Plowman, A. J. Richards and M. A. Tremayne 471

How well do plant traits correlate with establishment ability? Evidence from a study of 16 calcareous grassland species
M. R. Leishman 487

Process of tomato root colonization by a pathogenic strain of *Fusarium oxysporum* f. sp. *lycopersici* in comparison with a non-pathogenic strain
C. Olivain and C. Alabouvette 497

Specific PCR-primers as a reliable tool for the detection of white truffles in mycorrhizal roots
A. Mello, L. Garnero and P. Bonfante 511

Effects of various organic compounds on growth and phosphorus uptake of an arbuscular mycorrhizal fungus
S. Ravnskov, J. Larsen, P. A. Olsson and I. Jakobsen 517

Direct interaction between the arbuscular mycorrhizal fungus *Glomus intraradices* and different rhizosphere microorganisms
M. Filion, M. St-Arnaud and J. A. Fortin 525

Interactive effects of arbuscular mycorrhizal symbiosis, intraspecific competition and resource availability on *Trifolium subterraneum* cv. Mt. Barker
E. Facelli, J. M. Facelli, S. E. Smith and M. J. McLaughlin 535
